

Supporting Formula One in Shanghai

Toll Global Forwarding's Exhibition and Removals business, operating as BALtrans E&R in China, has had another successful year providing the logistical set up for the 2012 Formula One China Grand Prix. Despite stringent security control on the apron this year, TGF E&R still managed to handle all the racing equipment from an unprecedented total of six Boeing-747 charter cargo planes with no delay.

This year, as a special thank you to TGF for our continued service at this annual event, Formula One invited employees and customers to enjoy the races with free tickets in the grand stand directly opposite the pit area. This was an exciting opportunity to watch the event take place after being involved in the logistics of putting it together, and everyone felt privileged to be able to enjoy this memorable event.

TGF E&R Shanghai is the sole logistics service provider for Shanghai Juss Event Management Co Ltd / Shanghai International Circuit, who run this event each year. Under this cooperation agreement, TGF E&R is entitled to handle some of the most influential and high level international sports events in Shanghai, such as Formula One Shanghai Grand Prix and Shanghai ATP Masters 1000 tennis tournament. The Shanghai International Circuit is also home to various motor sports races and events every year.

TGF E&R Exhibition and Removal Ltd was founded in 1987 and became a member of Toll Group in 2008. Over the last two decades, TGF E&R has been dedicated to offering its expertise in exhibition logistics and the fine art transportation industry. ←
